Equal Opportunity in Service Delivery Policy

No otherwise qualified applicant for service or program participant shall be excluded from participation, be denied benefits, or otherwise be subject to discrimination in any manner on the basis of race, color, national origin, age, sex, sexual identity, sexual orientation, religion, political beliefs or disability. No employee or other person shall intimidate, threaten, coerce, or discriminate against any otherwise qualified individual for the purpose of interfering with any right or privilege secured under one of the applicable civil rights laws, or because they have made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding or hearing under one of the applicable civil rights laws. This policy covers eligibility for access to service delivery, and to treatment in all of the programs, services and activities. All employees are expected to support the goals and programmatic activities relating to nondiscrimination in service delivery.

Community Treatment

North Central Health Care offers a variety of supportive services for those in our Central Wisconsin communities suffering from persistent to severe mental illnesses or struggling with substance abuse. Adaptability and innovation have made our programs very successful in helping people to function at their maximum capabilities in the community. In Community Treatment, services are deployed in community-based settings, such as an individual's home or workplace, and are geared toward achieving successful outcomes that are customized to each individual's lifestyle.

North Central Health Care offers a wide variety of resources, support networks and services. Discovering just which services are the best fit for each individual — and integrating the programs into your lifestyle — can be challenging, however our Community Treatment programs have the valuable knowledge, experience and resources available to assist individuals of all ages with effective treatment, support and recovery.

Who Can Enroll in Community Treatment?

North Central Health Care's Community Treatment programs serve individuals of any age, including adults and children, who are coping with substance abuse, mental health issues or co-occurring disorders. Support is provided in a variety of ways within the community, by providing individualized services that are recovery-oriented, flexible and empowering. Treatment, rehabilitation and support services have been specifically designed for:

- Youth
- Adults
- Individuals with high-intensity needs or co-occurring disorders

How is Care, Treatment and Support Determined?

North Central Health Care Community Treatment programs help individuals gain access to and coordinate a full array of services including medical, social, educational and vocational services. Individuals are matched with a case manager who assesses needs, helps develop a plan around individual goals, monitors progress and provides continual service coordination.

What Services Are Available?

Community Treatment services are designed to meet each individual's specific needs and may include:

- Assessment
- Recovery Planning
- Case Management
- Service Coordination
- Counseling
- Psychiatric and Psychological Services
- Medication Administration, Monitoring & Management
- Crisis Intervention
- Illness Management
- Recovery Education
- Employment-related Training
- Social and Recreational Skills Training
- Communication and Interpersonal Skills Training
- Community Skills Development
- Physical Health Assistance and Monitoring
- Psycho-education
- Peer Specialist Services
- Groups to Aid in Skill Building and Quality of Life Enhancement
