NORTH CENTRAL COMMUNITY SERVICES PROGRAM EXECUTIVE COMMITTEE MEETING MINUTES

September 24, 2025 1:00 p.m. North Central Health Care

Present: X Kurt Gibbs X Renee Krueger

X Lance Leonhard X Robin Stowe

Staff Present: Gary Olsen, Jason Hake, Marnie Bredlau, Vicki Tylka, Ben Peterson, Kristin

Woller

Others Present: Mike Puerner, Corporation Counsel

Call to Order

• The meeting was called to order by Chair Gibbs at 1:00 p.m.

Public Comment for Matters Appearing on the Agenda

• None

Approval of August 27, 2025 Executive Committee Meeting Minutes

• **Motion**/second, Stowe/Krueger, to approve August 27, 2025 Executive Committee meeting minutes. Motion carried.

Financial Update

• Mr. Hake provided an overview of financials through the month of August noting that overall the organization is currently in a strong position.

2026 Budget Presentation

• A review of the 2026 budget was provided by Mr. Hake.

Executive Director Work Plan Update

• The updated Executive Director Work Plan was included in the meeting packet for the committee's review.

Approval of 2026 Budget

• **Motion**/second, Leonhard/Stowe, to approve the 2026 Budget as presented. Motion carried.

Respiratory Therapist Grade Placement

- Ms. Bredlau reviewed the memo included in the packet requesting a change in the Respiratory Therapist grade placement.
- Motion/second, Leonhard/Krueger, to approve the request to increase the Respiratory Therapist position from Grade 11 to Grade 12 resulting in a projected annual financial impact of \$38,021. Motion carried.

New Position Request

- Mr. Hake provided an overview of the purpose in requesting a new position for Manager of Procurement.
- **Motion**/second, Krueger/Leonhard, to approve the new position of Manager of Procurement resulting in a budget impact of \$42,423 annually. Motion carried.

Compensation Administration Guide

• Approval of Compensation Administration Guide was tabled and will be placed on the October 2025 Executive Committee meeting agenda for action.

Employee Grievance Policy

- The updated Employee Grievance Policy was presented.
- **Motion**/second, Krueger/Stowe, to approve the revised policy as presented. Motion carried.

Nursing Home Operations Committee

- Mr. Olsen provided an overview of the memo in the packet on the purpose and structure of the Nursing Home Operations Committee. The memo included information provided by corporation counsel on both state and federal regulations.
- Motion/second, Leonhard/Stowe, to postpone the discussion on the Nursing Home Operations Committee until next month and have staff review the current Mount View Nursing Home agreement.

Formal Acceptance of the Executive Director Retirement Notice and Designation of an Acting Executive Director

• Mr. Leonhard drafted a memo consistent with the discussion from last month outlining what the transition would look like and will be discussed in the closed session. Therefore, action was postponed until the Committee comes out of closed session, agenda item 5g.

Closed Session

- Mr. Puerner explained the purpose for a closed session is due to the discussion of the data and information that had been gathered about specific personnel employed by or working with the North Central Health Care facility, so disclosure of that information would be contrary to the interests of those individuals as well as the organization. Additionally, the Committee will be conferring with council about the potential of claims and progress of claims related to incidents that occurred both at the ACSF and nursing home under the jurisdiction of North Central Health Care. Therefore, discussion of that legal advising both sessions is appropriate to ensure that attorney client privilege is protected.
- Motion/second, Stowe/Leonhard, to go into Closed Session (Roll Call Vote Suggested) pursuant to Wis. Stat. ss. 19.85(1)(c),(f) and (g), for the purpose of "[c]onsidering employment, promotion, compensation or performance evaluation data of any public employee over which the governmental body has jurisdiction or exercises responsibility", "considering medical data of specific persons", "preliminary consideration of specific personnel problems or investigation of charges against specific persons," and "conferring with counsel" with respect to litigation NCHC could become, or is likely to be, involved

in to wit: Update on Investigative Matters Concerning NCHC Employees and Survey Results and Discuss Program Specific Personnel Issues and Concerns, Discuss Medical Data of Certain Individuals, and Update From Legal Counsel Regarding Potential Claims Associated with Employee Actions. Roll call vote taken; all indicating aye. Staff remained in closed session. Motion carried. Meeting convened in closed session at 2:28 p.m.

- Motion/second, Stowe/Leonhard, to Return to Open Session at 4:02 p.m. Motion carried.
- Possible Announcements and/or Action Regarding Closed Session items
 - o None
- Mr. Puerner explained that the next closed session is to discuss and consider information provided by a departing attorney in the corporation counsel office with one of the committee members that includes specific information and should be discussed in closed session because it relates to specific personnel issues for the organization. The other item is for discussion and transition planning for the Executive Director position that is one of the employees over which the Committee has direct oversight and, is the employee that the Committee has the ability to make those decisions about so those decisions are entitled to a closed session.
- Motion/second, Stowe/Leonhard, to go into Closed Session (Roll Call Vote Suggested) pursuant to Wis. Stat. ss. 19.85(1)(c) and (f), for the purpose of "[c]onsidering employment, promotion, compensation or performance evaluation data of any public employee over which the governmental body has jurisdiction or exercises responsibility", and "preliminary consideration of specific personnel problems, to wit: discussion of data gathered from exit interview of departing partner agency employee and transition planning for Executive Director position. Roll call vote taken; all indicated aye. All staff were excused. Motion carried. Meeting convened in closed session at 4:04 p.m.
- Motion/second, Krueger/Stowe, to return to open session at 5:02 p.m. Motion carried.
- Possible Announcements and/or Action Regarding Closed Session items
 - Motion/second, Leonhard/Stowe, that the Executive Committee formally accept the resignation and retirement and release of all claims to the current Executive Director, and concurrently appoint Jason Hake as Acting Executive Director effective September 28 of this year, consistent with the transition plan that the Committee discussed and the memo, and that the chair of this committee be formally empowered to execute all necessary documents consistent with the motion. To provide clarification, it is not part of the motion but as laid out in the memo, the idea is to have the current executive director transition to an advisory role through January 2. Motion carried.

Next Meeting Date & Time, Location and Future Agenda Items

• Wednesday, October 29, 2025 at 1:00 p.m. in the NCHC Eagle Board Room.

Adjournment

• Motion/second, Leonhard/Krueger, to adjourn the meeting at 5:10 p.m. Motion carried.

NORTH CENTRAL COMMUNITY SERVICES PROGRAM EXECUTIVE COMMITTEE MEETING MINUTES

September 30, 2025 9:45 a.m. North Central Health Care

Present: X Kurt Gibbs $X_{(WebEx)}$ Renee Krueger

 $X_{(WebEx)}$ Lance Leonhard $X_{(WebEx)}$ Robin Stowe

Staff Present: Gary Olsen, Jason Hake

Call to Order

• The meeting was called to order by Chair Gibbs at 9:45 a.m.

Recommendation of Medical Staff

• **Motion**/second, Leonhard/Stowe, to approve the recommendations of Medical Staff for Bennett E. Harris, D.O. Motion carried.

Adjournment

• Motion/second, Stowe/Leonhard, to adjourn the meeting at 9:45 a.m. Motion carried.

Minutes prepared by Debbie Osowski, Senior Executive Assistant

OVERVIEW

The purpose of this guide is to provide rationale and direction in the establishment and administration of the Classification & Compensation Program at North Central Health Care.

As an overview, North Central Health Care has implemented a new 16-step pay structure to remain competitive in both the private and public health care sectors. Following a thorough analysis of the total rewards package, including compensation, benefits, and cross-industry competition, the step structure was designed to be competitive at the 60th percentile of the market. The pay system has the minimum set at 90% of the control point and the maximum set to 115% of the control point. These pay ranges and structures were developed through an objective process by a professional compensation consulting firm and subsequently adopted by North Central Health Care.

Compensation system design determines pay ranges based on combining principles of objective job evaluation and accurate market measurement.

Job Evaluation

The objective job evaluation process involved the application of a Point Factor Job Evaluation System using current job documentation and leadership input. Job Evaluation is a systematic method of determining the internal relationships of positions within an organization. This process involves detailed analysis of a position to determine its requirements, assigned responsibilities and influence on the organization's operations. Evaluation factors are:

- Formal Preparation and Experience
- Decision Making (Impact)
- Thinking Challenges/Problem Solving
- Interactions and Communications
- Work Environment

Market Analysis

Market analysis was inclusive of compensation practices for similar positions at comparable organizations, as well as organizations in the competitive geographic market. This market analysis was completed using published compensation surveys and sources where the market data is provided by employers matching their information. In addition, a custom survey was utilized through the consultant's survey. The survey sources utilized through the consultant's survey library provide data that is administered on a recurring basis which ensures we can repeat the study using consistent methodology in the future.

PROGRAM OBJECTIVES

1 Develop and maintain a pay structure that will enable North Central Health Care to attract and retain qualified personnel.

2) Have a flexible Compensation Program that continually **reflects changing economic** and competitive conditions.

Maintain pay relationships among positions that are **internally consistent** and by recognizing important relative differences in position responsibilities and requirements.

Establish and maintain pay levels that will compare favorably with salaries paid by other employers in North Central Health Care's employment area, for positions of similar responsibility.

Follow the principles of equal employment opportunity (EEO), basing differentials in pay solely on qualifications, position responsibilities and meeting performance expectations without regard to non-position related attributes such as race, color, religion, sex, age, national origin, marital status or any disability which does not preclude the effective performance of position accountabilities.

The Guide is not a contract and is subject to periodic revision and update as organizational circumstances dictate.

PAY STRUCTURE: Design & Maintenance

Pay Structure

To facilitate effective administration of the Program, a pay structure has been established for all employees including the Executive Director.

Grade Levels

and non-exempt roles.

The pay structure consists of a set of levels of responsibility, or grades. A sufficient number of grades have been established to recognize important relative differences in position responsibilities and requirements, from the lowest to the highest-level position in the structure.

Assignment of positions to grades is accomplished through the evaluation of each position and the matching of certain positions to applicable employment market rates. The placement of positions to grades is consistent across exempt

Step Structure Ranges

Each pay grade is assigned an appropriate Step Range, based upon market pay data for the positions in that grade. The control points for these step ranges are derived from the 60th percentile market measurement.

In the step structure, the percentage spread within the step range reflects the increasing complexity and autonomy of the roles assigned to each structure. Additionally, the range width is designed to represent a reasonable progression, with steps calculated at 2% of the control point up to the control point, and a 1.5% step progression thereafter. The pay grades have a minimum of 90% and a maximum of 115% of the control point. All pay ranges consist of 16 step increments, with step 6 representing the control point.

Structure Maintenance

The salary structures should be measured against market data approximately every three years and adjusted as necessary to ensure that competitive salary ranges are maintained. This process will also allow North Central Health Care to respond to individual benchmark positions that may be moving in the market at a faster pace than other roles. North Central Health Care may contract this review out to a professionally qualified external compensation consultant.

PAY ADMINISTRATION:Step Structure System

In terms of pay delivery for all staff, North Central Health Care has adopted a 16-step pay structure design. The steps are intended to provide a consistent pathway for employees to progress through the structure. This system ensures transparency and fairness in compensation, aligning with market standards and rewarding employees for their experience and performance. Each step increment is designed to reflect the increasing complexity and autonomy of roles, with a structured progression from the minimum to the control point and beyond.

Determining Pay for New Hires

North Central Health Care (NCHC) aims to offer competitive and equitable pay to new hires while maintaining internal consistency.

The following guidelines outline how step placement should be determined at time of hire:

General Step Placement Philosophy

For individuals who demonstrate full qualifications but have little or no on-the-job experience in the role, near the minimum is an appropriate hiring target (typically Step 1 to Step 3). Those with demonstrated experience in a "substantially comparable" role, either externally or internally, may be offered a higher step, potentially at or beyond the Control Point of Step 6 or Control Point for a tiered position, if justified and approved by Human Resources and Executive Director. Note a tiered position (I, II or III) is position within the same job grade that reflects education or certification differences.

All offers must consider internal equity. New hires with education and experience similar to existing staff should not be brought in at a higher step than those similarly situated. If a higher wage is required to secure a candidate, equity adjustments for current staff should be considered through the annual employee evaluation process.

"North Central Health Care aims to offer competitive and equitable pay to new hires while maintaining internal consistency."

Pay Structure and Employee Annual Pay Increases

On an annual basis, Human Resources will share with the leadership team and Executive Committee evidence of how comparable employers are adjusting their pay structures for the same period to maintain their competitive postion. Human Resources will also annually present the Executive Committee with a recommendation for a total annual increase to be applied to employees' base compensation. This increase will be in the form of a step adjustment. The combined increase of structural adjustment and step increase will be the number that is measured and assessed each year by Human Resources through this process.

The amount of the annual pay structure increases and base compensation adjustments will be determined by a review of what comparable institutions and other competitive employers are granting as total annual increases for the same period. North Central Health Care may contract out this review to a professional qualified external compensation consultant.

Some sources of information to be utilized in making this determination may include:

- Annual published surveys (e.g., "World-at-Work"; formerly American Compensation Association, Total Rewards Consulting, Mercer, Willis Towers Watson)
- Established economic indicators, such as the Consumer Price Index (CPI)
- The financial condition of North Central Health Care and the organization's ability to fund increases in pay for the coming year.

The Executive Committee shall consider this information in determining what, if any, pay increase adjustment is necessary so North Central Health Care may maintain its competitive market position and progress employees through their pay ranges. The pay structure will be adjusted each year if the market dictates a need to adjust the pay structure. The annual increase amount for the salary structure shall be applied to the range control points. Adjustments to steps will be calculated from the new range control points. This process is to keep pace with the external target market. The structure adjustments and the employee increase

typically occur simultaneously. When approved, staff on steps will move to the next step, provided they meet performance expectations.

Employees are not to progress beyond the maximum rate of pay for their pay range. An employee at the maximum is typically eligible for any structural adjustment, maintaining their position at the range maximum. Employees paid above the maximum range may be eligible for a one-time lump sum payment at the beginning of the fiscal year equivalent to the rate of the structure adjustment as approved by the Executive Committee.

Annually, per Section IV.C.6 of the Amended and Restated Intergovernmental Agreement Establishing a Multicounty Department of Community Programs (Tri-County Agreement) "The Executive Committee shall approve all pay ranges within the organization on an annual basis" during the process described above.

Procedure for Recommending Pay Adjustments

Pay Adjustments beyond the annual step increases, but not to exceed step increases 2 steps above employees' current step, must be recommended by the Employee's Supervisor and approved through a consensus review with the Senior Leadership Team and Human Resources. HR is responsible for ensuring that all adjustments are in compliance with this policy. Employees should be promptly informed of their pay increases. Retroactive pay adjustment recommendations will not be considered except under highly extenuating circumstances and with the approval of HR and Senior Leadership.

Market Adjustments

North Central Health Care's Compensation Program has provided a methodology for determining pay rates that recognize not only the worth of positions in the market, but also the worth of positions within the organization. Market adjustments should generally be considered in the future under only one or more of the following circumstances:

- North Central Health Care has documented problems recruiting and/or selecting employees within the assigned pay range (for example, a position is advertised several times resulting in few or no qualified applicants) and the hiring manager/HR has exhausted all proactive avenues for recruitment.
- North Central Health Care has an unacceptable rate of turnover in a position and exit interview information indicates pay is a significant issue.
- An ad-hoc market measurement conducted by a third-party compensation consultant shows the control point of the pay range is more than 10% lower than the market target rate of pay shown for the position in the market analysis.

In situations where the market demands higher pay rates, at North Central Health Care's discretion, one of two actions will be available:

- Adjust the employee's pay upward in the existing pay range (move to a higher step)
- Move the position into a higher pay range (grade adjustment), temporarily, and only while market conditions are still causing the problem. Consider an individual adjustment to current incumbents in the new pay range.

North Central Health Care will utilize the first option whenever possible. However, when North Central Health Care utilizes the second option, the appropriate pay range will be determined by Human Resources (with consultation from a compensation expert, if possible), and the position will be placed in a higher range. Further, all documents and communications are retained to reflect the temporary assignment of these positions to a higher pay range. Human Resources will check market conditions annually, and if conditions change, these positions will move back into their initially assigned pay range.

North Central Health Care recognizes that the allowance of market adjustments does disrupt some of the internal equity in its Compensation Program because there are positions that are of higher internal value that may be paid less than a position of lower internal value. This is why North Central Health Care intends to utilize market adjustments sparingly.

All market adjustments must receive approval from the Executive Committee. If a position under a market adjustment is reclassified to a lower pay range, the procedure for Compensation upon Involuntary Demotion (see later section) will apply in regard to pay for the affected employee.

Responsibility for Administration

The North Central Health Care Classification & Compensation Program will be coordinated under the direction of Human Resources with the approval of the Executive Director.

Requests for Compensation Review of Current Positions

Requests for a compensation and pay grade assignment review of a current position whose main responsibilities and functionality have gradually evolved with time may be made once per year with approval from the appropriate leadership team member. A current job description with redline updates and written input from the manager will be needed to conduct the review. The updated documentation must be submitted through the annual budget process. HR, in collaboration with an external compensation consultant, will review the changes in job documentation to determine if a grade change is warranted. If a change in grade is necessary, HR and external consultants will recommend an individual adjustment for the current incumbent to be applied with the annual increases at the start of the following fiscal year.

Off-cycle requests may be made by a leadership team member with approval from Human Resources and the Executive Director, based on business demand but should be limited. Proactive, planned reviews will prevent frequent off-cycle requests.

Pay Grade Assignment for New Positions or Positions Impacted by Significant Organizational Change

When new positions are created or existing positions undergo substantial change which can be due to addition or reduction of job duties due to employee attrition, or significant process/job change, North Central Health Care has established a process to review and assign the new/changed position to the pay structures. In these situations, with the input and analysis of the compensation consultant, the organization will utilize the Job Evaluation and/or Market Analysis process to add the new/changed position to the Compensation Plan and assign it to a pay range contained in the Plan. Considerations for range placement will include internal consistency and market considerations.

The Executive Committee shall approve the addition of all new or additional positions within the organization and shall approve any reclassification of an existing position only if the reclassification results in the allocation of FTEs to other departments and involves a substantial change in job duties or places the position in a higher pay grade per Section IV.C.7 of the Tri-County Agreement.

Compensation Upon Promotion

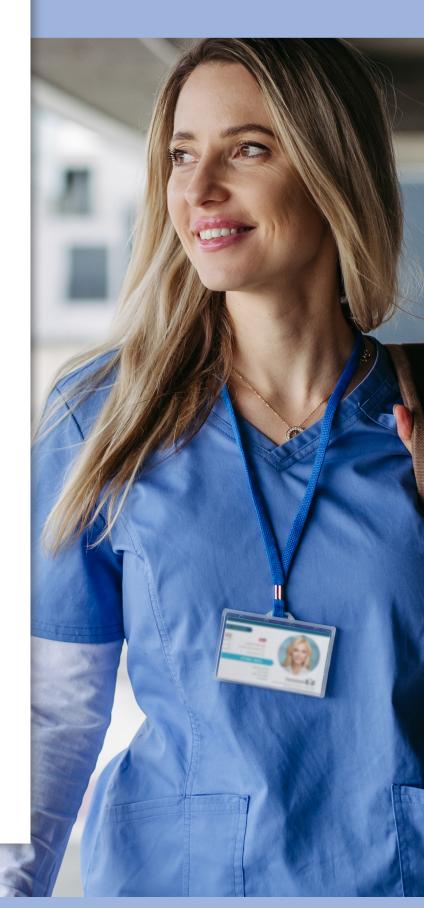

A promotion is defined as a movement to a position that has a higher pay grade than the present grade assigned to an employee. A pay adjustment may be made in connection with promotion, even though the promoted employee may already be at or above the minimum rate of the new pay range. Such an adjustment would normally be made at the time of promotion or, under very rare circumstances, within a reasonable period (six months, for example) if there is a question as to the new incumbent's qualification for the position. **The amount of the adjustment should consider:**

- The pay range for the new position.
- The time elapsed since the employees' last increase.
- The employee's qualifications and experience relative to those required for the new position.
- The employee's current pay relative to the salaries of other incumbents in the new position.
- Salaries of employees to be supervised, if any.

Wage adjustments will be determined on a case-by-case basis upon a thorough review of the specific circumstances. In no case will a promotional increase allow the employee to earn a pay rate above the established maximum of the new pay range. Promotional increases are separate from the annual pay increase cycle.

Consideration must be given to the current compensation of other employees in the same classification (if this is applicable) to maintain internal pay equity.

Promotional increases that exceed these guidelines will need the approval of Human Resources and the Executive Director.

Compensation upon Lateral Transfer

Employees who transfer to a new position with the same pay grade as their old position will typically not receive a base pay adjustment.

Compensation upon Involuntary Demotion

An employee who is demoted for involuntary reasons unrelated to performance will retain his/her present base compensation even if his/her base compensation exceeds the new range maximum. If an employee's base compensation exceeds the new range maximum, the employee will not be eligible for further base-accumulating pay increases until his/her base compensation is again within the pay range for the new position. During the annual increase process, the employee will not be eligible for a lump-sum payment.

Compensation Upon Voluntary Demotion

An employee who requests and is granted a voluntary demotion will receive a decrease in pay, the amount of which is to be determined given the facts and individual circumstances. In no case shall the employee compensation ratio in their new pay range assignment exceed that of the old pay range. Compensation ratio is defined as the percentage figure determined by dividing the employee's current base pay by the pay range control point.

Temporary Pay

Due to extenuating circumstances, staff will occasionally be asked to cover for others who are on leave or while filling vacancies. Managers should work with HR to determine when temporary pay is appropriate.

There are two situations that have been identified as warranting temporary pay. The first situation is related to the workload of the individual employee. The workload temporary pay is meant to provide employees with recognition for the additional hours required to complete their normal tasks. This increase in worktime demand should be significant and ongoing. This increase in workload must be directly related to vacancies on the team.

Workload:

Non-Exempt: Non-Exempt staff covering for others in a similar role to their own should be compensated for the additional workload through the allowance of overtime.

Exempt: Exempt staff that are experiencing a significant and ongoing increase in required work hours will receive a bi-weekly stipend. The amount of the stipend will be determined by HR and Senior Leadership. This bi-weekly stipend will be paid while the required increased hours are transpiring. The stipend will be reviewed quarterly by the manager and HR. When the increase in hours is no longer required, the employee's pay stipend will end.

Complexity of Tasks/ Scope of Responsibility:

Non-Exempt: If a non-exempt employee is asked to take on higher-level (more complex) tasks than what is normally expected from their role, a temporary pay differential should be applied to the employee. The differential amount will be determined by HR & Senior Leadership. This differential would be paid for all the hours worked while the employee is asked to take on these additional tasks. When those tasks are removed from the employee's scope of responsibility, the employee's pay differential will end. The differential will be reviewed quarterly by the manager and HR.

Exempt: An exempt employee asked to take on higher-level (more complex) tasks than what is normally expected from their role will be compensated with a bi-weekly stipend. The amount of the stipend will be determined by HR and Senior Leadership. When these higher-level tasks are removed from the employee's scope of responsibility, the monthly stipend will end. The stipend will be reviewed quarterly by the manager and HR.

If it is decided that the higher-level tasks will not be removed from the employee's scope of responsibility, the position description should be updated, and the role should be re-evaluated for appropriate grade placement. The temporary pay will end, and any compensation adjustment will follow the existing process for reclassifications.
