

YOUTH SERVICES

What do we do?

We provide a variety of services and support aimed at assisting families who have children with special needs.

- We work with families to help them get the services and support they need to keep their child at home in the community, while meeting their unique needs.
- We support youth in their home, community and school settings.
- We use a family-centered approach to providing services. Families are always involved in guiding the services provided for their child.
- Services are voluntary and designed to meet each individual's needs.

Equal Opportunity in Service Delivery Policy

No otherwise qualified applicant for service or program participant shall be excluded from participation, be denied benefits, or otherwise be subject to discrimination in any manner on the basis of race, color, national origin, age, sex, sexual identity, sexual orientation, religion, political beliefs or disability. No employee or other person shall intimidate, threaten, coerce, or discriminate against any otherwise qualified individual for the purpose of interfering with any right or privilege secured under one of the applicable civil rights laws, or because they have made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding or hearing under one of the applicable civil rights laws. This policy covers eligibility for access to service delivery, and to treatment in all of the programs, services and activities. All employees are expected to support the goals and programmatic activities relating to nondiscrimination in service delivery.
