To leave a legacy is to hand down something from the past. Living with dementia should not hinder that opportunity. Utilizing creative interventions coupled with innovative care, we nurture life in the present and continue building futures.

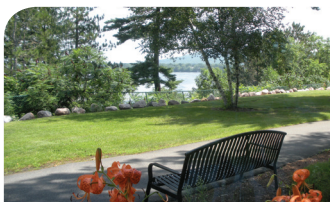

Legacies by the Lake Pioneering New Beginnings

Mount View Care Center

is nestled on a 17-acre, fully-landscaped campus with gorgeous, elevated views of Lake Wausau and the surrounding community. We provide a comforting, open-concept living environment, where each resident has the freedom to safely explore and be the person that they are.

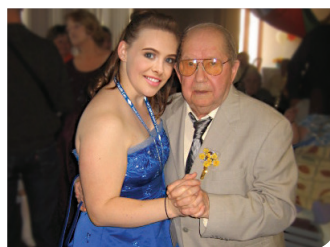

- Private Courtyards
- Memory Gardens

Ground-breaking Interventions

Recognized by state and national organizations as a leader in dementia care innovation, our teams complement person-centered care with alternative methods to successfully reduce the use of medications while enhancing each resident's quality of life.

- Aromatherapy
- Certified Massage Therapy
- Board-Certified Music Therapy
- Pet Therapy
- Intergenerational programs

Fostering Abilities

We focus on providing frequent, individualized opportunities that maintain the highest levels of ability for those living with dementia. High staff to resident ratios allow us to take a personalized approach and stimulate abilities in a comforting, supportive manner.

From the moment each resident joins us, our teams take a comprehensive view of past and present leisure activities and use this knowledge to promote quality experiences through activities.

- Community outings such as sporting events, seasonal ventures, museum visits & fishing
- Spiritual growth & regular worship services
- Dances and social events
- Seasonal festivities & holiday celebrations

Helping Families Be Families

Just as important as the care each resident receives, is the support and resources available to assist families and loved ones on their journey. On-site programs are in place to provide education, networking, and support.

Active Neighborhoods

With so many components and levels to dementia, three distinct and extensive care communities have been formed to support all levels of dementia care. We realize the role environment can play, and match each resident to a neighborhood that not only suits their level of care, but also their personal preferences and interests. Residents and visitors will regularly enjoy picturesque views of nature in a warm, home-like environment.
