Your insurance plays an important part in paying for the costs of services. We will make every attempt to collect from your insurance company. North Central Health Care is licensed as a psychiatric hospital and does receive reimbursement from some insurance companies.

Please be aware that some companies limit their coverage to services provided by certain professionals. Others may not pay for outpatient services, and some pay only a portion of the cost and have a deductible, a maximum payment, or a percentage payment feature. Check your insurance policy or discuss your coverage with your place of employment or insurance agent.

Medicare

North Central Health Care is approved for Medicare reimbursement subject to all Medicare regulations such as co-insurance, deductible and maximum benefits.

Medical Assistance

Medical Assistance covers most outpatient services. Clients will be required to pay their co-payment at the time of their appointment.

Fee Calculation

North Central Health Care provides various types of assessments, evaluations, therapy and counseling, both individual and group. For these services we do charge a fee. The fees vary by provider type and the length of the visit.

In calculating fees, please note that the provider may include some preparation for individual or group services.
