# NEWS YOU CAN USE

## WEEKLY CONNECTION WITH MICHAEL LOY

### Medicaid Expansion

Governor Evers has made Medicaid Expansion a major priority in his first state budget. Wisconsin is one of 14 states that has not accepted federal money to expand Medicaid. Since 2014, the Legislative Fiscal Bureau has estimated Wisconsin has passed on about \$1.1 billion in federal funding. Governor Evers estimates that expanding Medicaid now would bring in \$320 million in new federal funding in the two years his budget encompasses. No doubt, Medicaid Expansion is and will continue to be fundamentally a political issue with a long road ahead. The political issue has mostly centered around whether the short-term funding boost is worth the potential long-term costs of expansion if the federal government lowers its funding for expansion. My comments are not an endorsement for or against any particular policy decision, rather I'm hoping to explain what expansion means and the implications to NCHC.

Medicaid expansion is essentially allowing individuals up to 138% of the Federal Poverty Level (FPL) to have access to the Medicaid program. Previously Governor Walker's administration had a strong policy of not expanding Medicaid. The current Republican legislature is looking to preserve that policy. A few years ago, despite rejecting Medicaid Expansion, Governor Walker did expand the Medicaid program to cover all childless adults at or below 100% of FPL, which was an improvement. However, the policy change at the time also included reducing Medicaid eligibility for parents from 200% of FPL to 100% of FPL. Both policy changes were based on the premise that individuals at or above 100% of FPL now had access to the health care exchanges with available sliding scale cost subsidies up to 400% of FPL. Therefore, theoretically all residents had access to coverage. With these policy changes, along with the passage of the Affordable Care Act, Wisconsin has seen the number of uninsured individuals drop to be one of the best rates in the nation with 5% of the population uninsured. Health insurance is very important for individuals and providers who mutually agree that we need to find ways to increase access to affordable coverage. The question is always how you accomplish providing and paying to achieve these goals.

In Governor Ever's budget, Medicaid expansion is projected to take approximately 80,000 people off of the sidelines into the Medicaid program. Research has shown that in states with Medicaid Expansion, providers like NCHC have seen financial improvements from less uncompensated care (people using health care resources without having coverage or ability to pay out of pocket costs). Unfortunately, those improvements have also been shown to be offset by new losses due to inadequate Medicaid reimbursement rates compounded by more people joining the Medicaid program. This is an especially important concern here in Wisconsin where Medicaid is on average only reimbursing \$0.65 of every dollar it costs to provide services and with already having a low uninsured rate. According to the Wisconsin Hospital Association Wisconsin's Medicaid reimbursement rate is 27% less than the national average and second worst in the entire country. Our annual funding for our operations already has 46.5% of our revenues from the Medicaid program. What the next budget does for Medicaid reimbursement rates is as important, if not more important, to access to services than Medicaid eligibility changes alone. If rates are improved, access to services will improve here and likely across the state.

– continued on page 2

A few weeks ago we met with the new DHS Secretary Andrea Palm about this and other budget priorities for the Governor in his first budget. Success would be for any new Medicaid funding from the federal or state government to be used to improve Medicaid reimbursement rates. I believe this is the goal in the upcoming state budget. Outside of the Medicaid Expansion issue, there are many new opportunities for NCHC within the proposed budget to expand upon our current work through new or enhanced funding. We appreciate the opportunities the state is targeting to improve support for all of our programming. The needs are great and the funding is always tight. It's difficult to know where this lands, but the next state budget is an important one for NCHC and we're watching closely.

Make it a great day,

*Michael By*

### PHOTO OF THE WEEK

#### Submit A Great Photo From Your Week!

Submit your photo and description to: Email: [jmeadows@norcen.org](mailto:jmeadows@norcen.org) or Text: 715.370.1547. Please indicate Photo of the Week and include your name, who/what/where of the photo and why you are submitting.

*Kim Gochanour is convinced these robins were attempting to communicate through her office window and were asking to get in! We feel their pain of dealing with this winter weather in spring. Hang in there little birds!*

To Inpatient Behavioral Health Team

## NOTICE: WAUSAU OUTPATIENT SERVICES

### Security Doors Installed – Badges Required

To increase security on the Wausau Campus in our care areas for both employees and those we serve, badge readers have been recently installed at the two doors near the reception and waiting room area in Outpatient Services, as well as the back hallway near the Dietary Office. Each door is badge-only to get in, and motion-activated to leave the area (this means it will unlock as you approach the door on the inside). All NCHC employees with a badge will have access to enter the Outpatient area.

Restroom use and Group Room use inside the Outpatient Services area on the Wausau Campus is now limited due to the security badge access door installation. Public and Outpatient Waiting Room Restroom use will now be directed to the hallways to the left and right of the Welcome Desk in the Locker Rooms. Blue directional signs now mark those restrooms. The women's restroom is on the right near Pharmacy and Men's is on the left near HR. Additionally, if a client or visitor needs to use a handicap-accessible restroom, please direct them to the restroom that is located near the Board Room. Blue signs have also been hung in the lobby area to assist with this wayfinding. We are aware that a changing table is only available in the Outpatient Services restrooms and are looking at installation in the restroom near the Board Room. Please watch for further updates on this. We are still working on the Group Room use procedures, so stay tuned.

Full installation of the Security Door will be finished by the Dietary Office very soon, but the doors near the Outpatient reception area are already fully operational.

Please contact your manager with any questions you may have and we will help answer questions as quickly as possible. Thank you for your patience and willingness to be flexible with these changes to make our work and service areas more secure.

**"I would like to spotlight the staff of Inpatient BHS. This is an awesome team of caregivers. We are at max capacity with very low staff. Our staff came together to defuse behaviors, do groups, come in early etc. Nobody once said, "It is not my job" or "in my job description" and just did it to not only take care of these patients but to help their fellow coworkers. Social workers, unit secretary, nurse manager, techs and nurses all went above and beyond and totally exemplify the values of NCHC!!!!**

*- Gina Giovanoni, MBA Health Unit Coordinator*

### VOLLEYBALL FUNDRAISER TO BENEFIT

*Presented by Edgar Volleyball Booster Club!*

The Edgar Girls Volleyball Booster Club is partnering with North Central Health Care to **raise funds to support the care of Alvin**, our NCHC Therapy Dog. On May 11, Edgar High School will be hosting a 15-team volleyball tournament. **50% of the proceeds from the concession stand sales will go toward supporting Alvin, as long as NCHC staff will help volunteer to work at the concession stand for the day!** It's pretty simple and no advanced experience is required. Teens and kids are welcome to help out as long as they can count change.

We are looking for volunteers from NCHC staff and family to work in 2-hour shifts helping to sell concessions at Edgar High School. We will need 3-4 volunteers per shift. Shifts will run from 7:00 am to 5:00 pm. We appreciate any and all volunteer help!

Alvin has already proven to be an important part of our NCHC Behavioral Health Team and this is a great opportunity to educate our communities on mental and behavioral health as well. Thank you for considering a volunteer spot! All volunteers will receive NCHC Shirt to wear for the event. We will contact you for shirt sizing!

**Register Today at [bit.ly/VolleyballNCHC](http://bit.ly/VolleyballNCHC)**

### ADVENTURE CAMP 2019 ANNOUNCEMENT

**Please Mark Your Calendars**

Mount View Care Center Adventure Camp 2019 will be the week of August 5-9. Adventure Camp is an intergenerational day camp offered to children age 3 (and potty trained) through age 12.

Children need to be of relation to a staff member here at NCHC (child/grandchild/niece/nephew etc.) Any questions can be directed to Melissa Stockwell at [mstockwell@norcen.org](mailto:mstockwell@norcen.org) or ext. 5104.

### RETIREMENT NEWS!

**Congrats Jane Uekert**

Jane Uekert has announced her retirement from NCHC after 10 years in the House-keeping Department. A celebration was held for her this past week to wish her all the best in her retirement. Congrats Jane and thank you for your service!

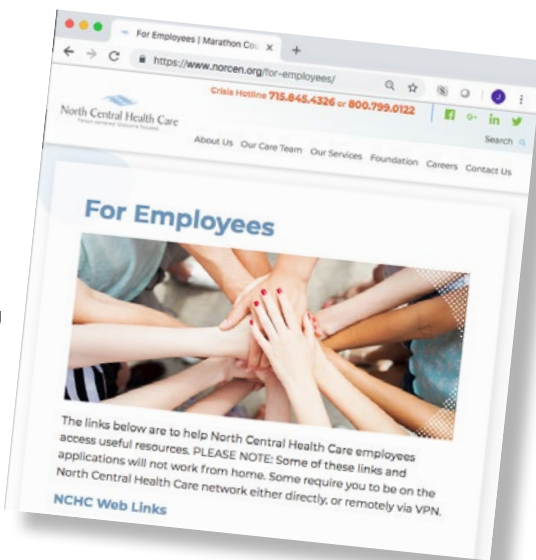

### CONNECTING YOU WITH INFO AND RESOURCES

**"For Employees" Page on Our Website**

## The 30th Annual Children Come First Conference November 11 & 12, 2019

[www.ccfconference.org](http://www.ccfconference.org)

The largest youth and adolescent mental health conference in Wisconsin.

The 30th Annual Children Come First Conference  
**"COOPERATION"**  
 November 11 - 12, 2019 • Glacier Canyon Lodge, Wisconsin Dells  
[www.ccfconference.org](http://www.ccfconference.org)

Presented by: Wisconsin Family Ties

**MONA DELAHOOSKE**  
 Mona Delahooke, Ph.D., is a nationally-known licensed clinical psychologist with more than 25 years of experience caring for young children and their families. In her private practice she consults with parents, preschools, regional centers, and school districts in the areas of screening, assessment, intervention and support for families with young children. She is the author of the bestseller *Social and Emotional Development in Early Intervention, A Skills Guide for Working with Children*. Dr. Delahooke believes parents and professionals gain the strongest developmental roadmap possible by understanding how each child's unique, individual differences can guide treatment while cultivating joy in the parent-child relationship.

**DAVID ROMANO**  
 David Romano, works with children, adolescents and families as a social worker in Minneapolis, Minnesota, and has been a mental health advocate for the past 25 years. In his work as an Active Minds speaker and advocate, he has collaborated with many organizations including the National Institute of Mental Health. David lives with depression and, in high school, experienced the dark lows of self-injury and a suicide attempt. Now living in recovery, he has committed his life to letting others, especially men, know that it isn't a weakness to ask for help. David encourages audiences to embrace who they are and to support each other in eliminating the stigma attached to mental illness.

The CCF Conference is for those caring for, working with or interested in the well-being of children and youth with social, emotional or behavioral challenges. For more information, visit [www.ccfconference.org](http://www.ccfconference.org) or contact Alison at 262-617-6775; [alison@wifamilyties.org](mailto:alison@wifamilyties.org)

# tidbits on benefits

## THE IMPORTANCE OF VACCINATIONS/IMMUNIZATIONS

You may have heard in the news that there have been outbreaks of measles infections not been seen in the United States for decades. This is due to under-vaccination of communities (WHO, 2018). Immunization programs have been instituted since the 1800s. Many of the illnesses that the vaccinations protect against, such as measles, at one time killed infants. One hundred years ago, 20 percent of infants did not live beyond 1 year old and another 20 percent of children died before the age of 5 due to childhood illnesses (Minna-Stern, Markel, 2005).

Since the discovery of the smallpox vaccine, there has not been a case of the scarring viral infection, since 1977 (Minna-Stern, Markel, 2005). The last case of paralyzing polio in the US was in 1979. It has been nearly eradicated world-wide due to vaccine programs (CDC, 2017).

<https://www.cdc.gov/polio/progress/index.htm>

There are also new reports of Hepatitis A infections on the rise. Hepatitis A is a viral infection of the liver causing nausea, vomiting, fever, malaise, and abdominal pain. The infection is transferred through food and water that has been contaminated from the stool of an infected person. There is also a vaccine for Hepatitis A. It is recommended if traveling overseas, in those who use IV drugs, come into contact with the stool of (changing diapers) or are intimate with someone who is infected.

When one goes in for an annual exam, immunizations are offered to adults as well as children to prevent potential illnesses. For instance, the Influenza Vaccine is offered annually. The tetanus diphtheria vaccine is offered every 10 years. Tetanus diphtheria with pertussis is given in place of tetanus diphtheria vaccine due to the increased cases of Pertussis or whooping cough. Shingrix helps to prevent the potentially painful Shingles rash. Prevnar helps to build immunity toward bacterial pneumococcal pneumonia (lung infection).

Many were vaccinated as children, however, sometimes immunity does not set in and may require a booster. The best way to determine if a booster is needed is by performing a blood test (titer) looking for antibodies to the organism, such as the Rubella or measles virus. The measles is so contagious, that if one person is infected, 9 out of 10 people exposed to that one person can get the infection. This can potentially paralyze a work force.

Vaccinations are developed to prevent long-term illness and the complications associated with a particular disease. Some are not able to receive vaccines due to allergies to the components of the vaccines or have health conditions that prevent administration. Those who can and do get vaccinated help prevent illness spread through "herd immunity". Contagion precautions such as washing hands and covering coughs are still helpful but not perfect. Receipt of a vaccine does not guarantee complete protection but the illness will be less serious in vaccinated persons. Feel free to ask questions regarding any prevention or treatment strategies offered at appointments.

## PRICE INCREASES IN WAUSAU CAMPUS CAFETERIA

**Beginning May 1, 2019**

Due to market price increases we need to make some price increases in the Wausau Campus Cafeteria. Starting May 1, 2019 increases will be as follows:

Cookies .....	\$.50
Milk.....	\$.50
Juice .....	\$.50
Dressing packets.....	\$.30
Cup of soup .....	\$1.50
Bowl of soup .....	\$2.25

## ECO-FRIENDLY STRAWS HAVE ARRIVED!

**Going Greener!**

The Wausau Campus Cafeteria now has the "eco-friendly" biodegradable straws available! They are green and "unwrapped", they will be available in the Cafeteria and all units and neighborhoods.
