## WEEKLY CONNECTION WITH JASON HAKE

While it is only preseason, it's time once again to don our green and gold and start gearing up for another exciting football season. The anticipation is already building for what promises to be a thrilling year for our beloved Green Bay Packers.

The preseason is a time for teams to fine-tune their strategies, evaluate their players, and prepare for the challenges ahead. It's

a reminder of the importance of preparation and teamwork—values that resonate with our organization. Whether on the football field or in our workplace, partnership is at the core of everything we do. Just as the Packers rely on the coordinated efforts of their players, coaches, and support staff to get ready for the regular season, we too depend on collaboration and mutual support to reach our goals.

This preseason, as we watch our team come together and prepare for the journey ahead, let's also reflect on how we can strengthen our own partnerships within the organization. By working together, sharing ideas, and supporting one another, we not only enhance our performance but also contribute to the success of our entire team. Just like in football, where every player's contribution is crucial to the outcome of the game, each of us plays an essential role in our organizational achievements.

So, as the Packers take the field this preseason, let's embrace the value of Partnership. Together, we can tackle challenges, seize opportunities, and continue driving our organization forward.

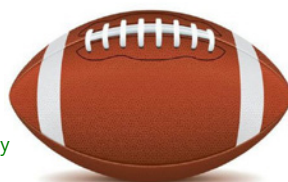

Here's to another great football season—Go Pack Go!
