Celebrating Our Team: A Look Back at Employee Celebration Week

Last week, we came together for Employee Celebration Week—and what a week it was! From Wausau to Merrill to Antigo, it was wonderful to see so many smiles, laughter, and camaraderie as we celebrated the incredible people who make North Central Health Care such a special place.

Personally, I had a great time getting to serve root beer floats and lunch to staff on campus and at Merrill. I only wish I could

have cloned myself so I could have joined in at Antigo as well!

Of course, events like this don't happen without teamwork and collaboration. Our Communications and Human Resources teams did a fantastic job organizing all the details and activities and making the week run so successfully. Our Dietary leaders also played a huge part of making this week special by helping with all of the food and well-deserved treats we enjoyed throughout the week. And I also want to recognize our managers, who brought the celebration into each team, making it personal and meaningful for their staff, handing out giveaways, and joining in the fun that made the week such a success.

Employee Celebration Week is a great reminder of the strength of our core value of partnership—when we come together, we make great things happen. Thank you to everyone who organized, participated, helped, or celebrated with us. Your energy and dedication are what make our organization thrive!
