

A Weekly Update
For The Employees of
North Central Health Care

PHOTO OF THE WEEK

WEEKLY CONNECTION WITH MICHAEL LOY

Spring Forward!

I was holding out in January in an effort to go an entire winter without having to use my snow blower. February ruined my New Year's resolution but there is always next year. At least we can all say we were here for the record breaking winter we are experiencing. As the week is ending, the temperatures are starting to warm even while we face yet another snow storm on Saturday night. Do not despair, I see 50 degrees in the forecast next

week. Winter is nearly over as we move our clocks forward on Sunday at 2 am and look forward to the first official day of Spring on Wednesday, May 20th. Spring is about renewal, growth and a fresh start. Before too long we will be mowing our grasses, swimming in outdoor pools and catching outdoor events. Our days are getting longer and brighter.

As the ground thaws we will start to see flowers, leaves and construction. We will be kicking off our campus renovations in early summer starting with the new aquatic therapy pool. Plans are being finalized and we will have details to share at our upcoming Employee Updates in two weeks. Don't miss out! Before that, we will be replacing windows in Mount View Care Center soon starting in a couple weeks. Get ready for action!

We live in an incredible community where there is so much to offer. It is exciting to be part of our community's future with our renovations and all of the other good work we are engaged in. It is so important to have nice care environments for people to go into. As an organization we are breathing new life in, yet building on all that is good about NCHC. I look forward to the Spring Forward.

Make it a great day,

COMMUNITY OUTREACH
Antigo Area Business

Tom Marquardt, Jill Mattek-Nelson and Brook Kick-haver represented NCHC at the Amron Health Fair in Antigo. Booths were set up within the factory which provides efficient accessibility to learning about community resources for Amron employees while providing booth participants a unique, interactive opportunity to connect people to resources. Thank you to our Antigo team for their outstanding efforts to connect with our community and share our service line information.

Submit A Great Photo From Your Week!

Submit your photo and description to: Email: jmeadows@norcen.org or Text: 715.370.1547. Please indicate Photo of the Week and include your name, who/what/where of the photo and why you are submitting.

Please remember! To protect the privacy of our patients, clients and residents, photos are not to be taken of any of those we serve without written permission.

REALISTIC JOB PREVIEWS

What's It Like To Work at NCHC?

Over the course of the next few months, NCHC will be embarking on a series of videos with our partners at US Workstories. You can watch some of the videos we have created in the past at our YouTube Channel. As we enter 2019 and look forward to our future, we are faced with the challenges that many other local businesses face – how do we recruit new employees and make sure they are a good fit for our organization?

Part of our strategy in employee recruitment and retention has always focused on hiring the right people for the job. We do this by providing applicants with a clear description of what their job entails to best match their interests and skills with our careers here at NCHC. With that strategy in mind, we are creating a series of videos that will also focus on what it is like to work at NCHC – a realistic day to day view of our work. We are calling these videos Realistic Job Previews. We will be using these videos to help tell the story about the good, the challenging and the amazing things that all come along with the job. Applicants will see up front, if the job is going to be a good fit for them. Videos will be used in a variety of ways throughout the recruitment process. Employees in all departments will be engaged in creating Realistic Job Previews, some as videos and some as printed handouts. More information to come!

Josie's teammates loved watching from behind the scenes. But we caught them on camera too! Gotcha!

We began filming our first Realistic Job Preview Video on Wednesday, Feb. 27 at the Employees of the Month Celebration and then focused our attention on our great team at NCHC Residential Services. It's never an easy thing to have a camera in your face, but Josie Herman, a Residential Care Assistant at Jelinek, did it with grace and style. We would like to thank the team in Residential Services, and especially Josie, for letting us share this awesome work story. The camera crew even got to meet Josie's Bernese Mountain dogs at her home!

We look forward to sharing these videos with you all and with our community and tell the story that is uniquely North Central Health Care's.

Michael Loy was interviewed to discuss the importance of high quality care and how choosing the right employee is so important in the lives of those we care for.

Josie Herman, a Residential Care Assistant at Jelinek is our first Realistic Job Preview Interviewee. Great work Josie!!!

The residents at Jelinek had a great time, too. We had a dance party, shared stories, and even ate fresh baked cookies together. They were so generous and welcomed us with open arms (literally) into their homes! Huge hearts!

WELCOME THESE NEW EMPLOYEES TO THE TEAM!

CCITC NOTICE: SPAM FILTERING

IronPort Spam Filtering

A few weeks ago CCITC upgraded our email SPAM filtering solution. The new solution includes the ability for users (You) to individually manage certain quarantined emails. The new system is still blocking messages that are clearly SPAM. In fact, over 90% of all incoming mail is SPAM. Some messages are less obvious and held in a 30 day (interim) location. You now receive weekly notifications (example below) of the most recent blocked items.

As noted in the message that you will receive, no action needs to be taken and messages are automatically removed after 30 days. If you note something in the list that you were expecting, you can release the message by using the provided 'Release' links. Questions? Call the HelpDesk at x6710 or 715-261-6710.

SAMPLE EMAIL:

IronPort Spam Quarantine Notification

The message(s) below have been blocked by your administrator as suspected spam.

There are 8 new messages in your Email Quarantine since you received your last Spam Quarantine Notification. If the messages below are spam, you do not need to take any action. Messages will be automatically removed from the quarantine after 30 day(s).

To see all quarantined messages view [your email quarantine](#).

MULTI-FUNCTION PRINTER SUPPLIES

What Do I Do With the Empty Toner and Waste Cartridges?

This has been a frequent question lately. If you have a multi-function printer in your area and it has a full Waste Toner Cartridge, DO NOT THROW IT AWAY! The used Waste Toner Cartridge can be placed in a plastic bag and Marco Copiers can be contacted to come and empty cartridge. The empty cartridge is your replacement. These cartridges are not recyclable, disposable and are meant to use over and over. For regular empty Toner Cartridges, you can continue to recycle those by placing them in the box from the new cartridge and follow the recycling instructions. Questions? Call Marco at the number on your printer's sticker right on the front!

NOTICE: FINAL CHANGE TO SECURE PRINT QUEUES FOR ALL NCHC USERS AND COMPUTERS

Final Removal of "SecurePrint" Queue

CCITC is making the final change related to secure printing within NCHC network. New "SecurePrint" queues have been pushed to all entities.

If your default printer is still SecurePrint (SecurePrint on ccdpcut02) you will need to change your default to the queue SecurePrint03 on CCDPPrint03.

On Monday, March 11th, "SecurePrint" will be deleted from the server and no longer function.

If you have any questions or problems with the new default setting, please contact the HelpDesk at 715.261.6710 or x6710.

Anniversary Open House

Come and tour your Employee Health & Wellness Center!

April 3, 2019

All North Central Health Care employees and their families are welcome to come and check out your clinic.

April 3, 2019 3:00pm - 5:30pm

1000 Lake View Drive, Suite 200
Wausau, WI 54403

Register for prizes, meet the staff and learn about the convenient care available to you.

MARCH IS NATIONAL SOCIAL WORK MONTH

SOCIAL WORKERS leaders. advocates. champions.

Every day, the North Central Health Care's social work professionals act as advocates, champions and leaders who make our communities a better place to live and our programs better places to receive services. NCHC employs social work professionals in a variety of areas throughout our organization, with several different job titles and duties.

National Professional Social Work Month is an opportunity for our organization to turn the spotlight on the profession and highlight the important contributions these important professionals make to society.

THANK YOU TO ALL THE SOCIAL WORK PROFESSIONALS AT NCHC!

North Central Health Care
Person centered. Outcome focused.

Tune into Facebook Live to watch the Medical College of Wisconsin-Central Wisconsin FIRST Match Day Ceremony!

On March 15, 2019, MCW-Central Wisconsin will celebrate with our inaugural class, as they match into their residencies. At the celebration, each graduating medical student will learn the location and specialty for their residency program.

The Match Day ceremony will be streaming live on MCW-Central Wisconsin's Facebook page:

Date: Friday, March 15, 2019

Time: Informal Coverage: 10:50 a.m.; Ceremony: 11:10 - 11:45 a.m.

Location: [facebook.com/mcw.cw.edu](https://www.facebook.com/mcw.cw.edu)

Please feel free to share this information!

For questions, please contact Theresa Gutsch at 715-870-0918 or tgutsch@mcw.edu.

Oh, BABY!

Do you have a birth announcement you want to share with our NCHC Family? Send your announcement and picture (if desired) to your manager for sharing in the News You Can Use. Monthly, we will include all the newest members of our NCHC family. Be sure to include: Employee's Name, Department, any other family member names (spouse, partner, siblings) and the name and birth date of your little one. We love photos, too, but we respect your privacy, so share what you wish, if you wish!

Welcome to the NCHC Family Nora Bernice VenRooy! Sarah VenRooy (Pfund) had her baby and shared some adorable pictures with us!! Congratulations Sarah!! Born on February 22nd 2019 at 1:08pm, weighing 7lbs and measuring 19 inches, Nora is loving her new home and everyone is adjusting well!!! Madi loves being a big sister and is a great help!!

Juggling demonstration.

MARCH MADNESS AT MVCC Skills & Drills

March Madness has arrived! As we watch all the great basketball teams complete for glory and honor in sport, Mount View Care Center put on a little March Madness event of their own. The Activities Team put together some great activities and games for residents in the dining room, along with a surprise guest, Jessica Meadows from Communication & Marketing at NCHC. Jessica put on a dribbling and ball handling demonstration that involved residents, volunteers and staff. She also brought in Harlem Globetrotter basketballs for the residents to hold and look at that were signed by the Globetrotters players. Fun was had by all.

(I think the activities team even broke a sweat!) Great job, team!

HEY MACARENA! Dancing for Our Residents in Legacies by the Lake

When the staff at Mount View Care Center wager that they will put on a dance show for the residents if they finish their meals and eat well, they need to come through on their end of the bargain. La Macarena was performed for everyone's enjoyment! Great job team!

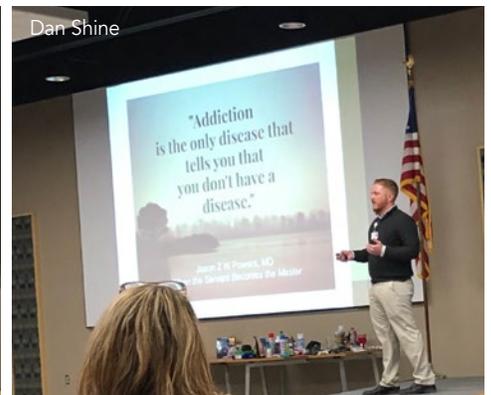

OUTREACH & EDUCATION Thank You Dr. Snider and Dan Shine!

North Central Health Care Clinical Psychologist Dr. Jonathon Snider and Daniel Shine, Manager of Lakeside Recovery, each gave a presentation at this week at Northern Region Foster Care Workshop. The event for foster parents, social workers and social services providers took place at North-central Technical College and focused on current drug trends and understanding addiction and the recovery/treatment process. We thank them and the other speakers for their contributions, as well as those who attended today's event; reminding us that it takes a community to help break the cycle of addiction.

Dr. Jonathon Snider

Dan Shine

"Addiction is the only disease that tells you that you don't have a disease."
James J. O'Connell, MD
1980 - 2000 - 2010 - 2020

tidbits on benefits

WELLNESS CORNER

By Sherry Gatewood, PA

What is Chronic Health Condition Support at the Employee Health and Wellness Center?

Our team at the Employee Health and Wellness Center will work together with your primary care provider in collaboration to ensure that you receive the highest quality care possible.

Sherry Gatewood

The Employee Health and Wellness Center is able to support chronic health conditions such as hypertension, diabetes, and thyroid disorders. With these conditions, collaboration with your Primary Care Provider (PCP) or family doctor is crucial. Care can be provided to ensure your condition is well managed, and if needed adjustments can be made. Through the use of an integrated health medical record, communication will be sent to your Aspirus Primary Care Provider (PCP) regarding the care you receive at the Onsite clinic related to chronic health conditions. If the PCP has any questions or recommendations, you will be notified. If you do not have a PCP, our team at the Employee Health and Wellness Center will help find one that meets your needs.

Examples of chronic health condition support may include refilling medications as needed and ensuring appropriate lab tests are performed. For instance, if you need a refill of diabetes medication and your labs are up to date, the Provider at the Employee Health and Wellness Center will write the prescription. If you need a refill and your labs are not up to date, you will get a short refill as well as lab orders to satisfy the next refill. If your labs are abnormal, adjustments will be made to your medications and your PCP will be updated on any changes.

The Employee Health and Wellness Center will also work to coordinate care with any other specialist that is involved with your care. This will also be done in conjunction with your PCP.

As a reminder the Employee Health and Wellness Center's hours are:

The Employee Health & Wellness Center experienced episodes of influenza. There is still time to get Flu Shot for this season. If you have family members have not already done so, they can get your flue shot here!

Thursday: 10:00 am - 6:30 pm

PETS AT WORK!

Know the Rules

While we all know the positive benefits of pets, especially therapy animals like Alvin, it has come to our attention that employees are bringing in their pets and keeping them here during their shift. We have had recent complaints from residents at Mount View Care Center and staff regarding this. The NCHC policy regarding animals in the workplace states that employees may not bring their pets during working hours. You may bring your pet in to visit the residents during nonworking hours. If you bring your pet for a visit on off hours please remember the following:

- 1. Pets should be on a leash at all times.**
- 2. Pets are not allowed in areas where food is served.**
- 3. Practice hand hygiene after any animal contact.**
- 4. Make sure vaccinations are up to date.**

Please refer to the policy, *Animal Visitation* in My Policies for questions. Thank you for your attention to this important notice.

VOLUNTEER SERVICES NEWS

The Volunteer Lounge at MVCC Has Moved!

The Volunteer Lounge has moved to support additional beds needed on 2nd floor at Mount View Care Center. Volunteers will now hang coats and leave personal items in the Information Station at Mount View Care Center. If they need to hang out or visit they can do this in the MVCC lobby, the MVCC staff lounge or either activity room. This change will be effective until our Campus renovation is complete.

Conversations with Scientists

March 1, 2018

[Register Now!](#)

MCW-Central Wisconsin to Bring Free, Public Learning Series to Local Community

I am excited to share a health and science education program that may be of interest to our Central Wisconsin community.

Twice each year, the Advancing a Healthier Wisconsin Endowment (AHW) at the Medical College of Wisconsin (MCW) hosts a free, public learning series called Conversations with Scientists. This multi-part speaker series explores groundbreaking changes taking place in biomedical research, medical education, and health care – and brings conversations about health and science out of the classroom or clinic, and into our community.

MCW-Central Wisconsin is excited to bring you an opportunity to join the next installment of this popular series, Tuesdays, April 2 – 23* from 6:30 – 8:30 pm. Titled, [Biomedical Engineering: Designing Tools for a Healthy Future](#), audience members will learn from experts about this cutting-edge field and how it impacts our health every day – from developing tools that protect us daily to specialized uses like surgical innovations.

I welcome you to join us at the MCW-Central Wisconsin campus (333 Pine Ridge Blvd., Wausau), where we will be livestreaming this engaging event from the MCW-Milwaukee campus. Audience members will be connected to presenters in real-time, participating in the program just as if they were in Milwaukee. If you can't make it to MCW-Central Wisconsin, you can also join via live webcast from any computer with internet access.

**Please note that the April 9 program will not be hosted at MCW-Central Wisconsin, so guests should plan to join via live webcast that evening. The program at MCW-Central Wisconsin will resume on April 16.*

<http://bit.ly/2H8ZKfY>

[Register Today](#)

This event is free and open to the public. Please consider sharing with others in your networks, and bring a friend!

Preventing Falls in Marathon County

Falls are the main cause of injury death in Marathon County, surpassing firearms and motor vehicle crashes.

JOIN THE CONVERSATION

Peggy Kurth, Community Health Educator with Aging and Disability Resource Center and Emily Loetscher, Injury Prevention Coordinator with Aspirus Wausau Hospital will share the current data on falls in Marathon County, the effect falling can have on an older adult, and programs available in Marathon County.

March 21, 2019 10:00 am to 11:30 am

Aging & Disability Resource Center of Central WI
2600 Stewart Avenue, Wausau

Presented by Partnership for Healthy Aging and part of the Building Momentum series, designed to inspire and engage community members around healthy aging in Marathon County. For more information, please contact Amanda.Ostrowski@co.marathon.wi.us.

Person-Centered Shout out

To Kristi Newton!

"I just wanted to reach out and let you know about Kristi Newton, a nurse on the Inpatient Unit. I don't feel that a Shout Out really conveys just how wonderful it is to work with her, so I wanted to share with you how awesome she is. She is the first to assist within Crisis for detox assessments, she is always willing to go the extra mile for patients, and she is quick to respond to any need with a smile on her face. She truly is an asset for this department and her dedication to her team and clients is so appreciated."

- Submitted by Hannah Spranger, BHS

Give someone a big shout out and thank them for their Person-Centered Service!

Send your SHOUT OUTS to jmeadows@nrcen.org.

HOLIDAY JUNK LIGHT COLLECTION FOR HABITAT FOR HUMANITY

WOW! 452 Pounds Donated in 2019!

Thank you to all the NCHC employees that turned in junk holiday lights to benefit Habitat for Humanity! 452 Pounds of junk lights we turned in to Habitat this week. The lights get stripped, melted and the copper wire and glass get recycled for cash used to purchase Habitat for Humanity materials for building homes right here in Central Wisconsin. This year NCHC added to the 3,000 pound total that was collected. Just the donations from NCHC were enough to fund all the 2x4 and 2x6's used to construct one Habitat for Humanity home! That is AMAZING!!! Just by turning in junk! We also kept all that waste out of landfills.

Alvin NCHC Therapy Dog

WHAT'S UP ALVIN? Adventure of a Therapy Dog

This week Alvin continued his orientation to NCHC with a visit to Crisis Services. He really hit it off with this team. They speak the same language and really know how to make people feel better! Be sure to follow Alvin and his adventures on Facebook!

How Depressed Are They? Assessment of Depression and Suicidal Ideation

FRIDAY, APRIL 5, 2019

This advanced program highlights the latest information in the diagnosis and treatment of mental disorders and the newest research areas in clinical psychiatry.

Who Should Attend?

This event is for psychiatrists, psychologists, residents, nurses, medical students, social workers, and other mental health professionals.

OBJECTIVES – Participants will learn how to:

1. Utilize a systemic approach to suicide assessment
2. Understand and describe the roadblocks to uncovering a client's true suicidal intent and his or her method of choice for suicide
3. Describe and utilize seven validity techniques for uncovering both suicidal ideation and the types of sensitive and taboo topics that trigger such ideation
4. Flexibly and sensitively utilize those validity techniques for eliciting suicidal ideation using the CASE Approach, with an emphasis on spotting clients with immediate and imminent risk of suicide

MORNING SESSION:

Featuring Dr. Shawn Shea

Author of *The Practical Art of Suicide Assessment*

**The Delicate Art of Uncovering Suicidal Ideation and Intent:
The Chronological Assessment of Suicide Events
(CASE Approach)**

Dr. Shea is an internationally acclaimed workshop leader and innovator in the fields of suicide prevention, clinical interviewing, and creating resiliency having given over 850 presentations worldwide.

AFTERNOON SESSION

Six Speakers Cover the Following Topics:

- » Zero Suicide Initiative at North Central Health Care
- » Interpersonal Approach to Causality of Suicide
- » EMDR Approach to Depression and Suicidal Ideation
- » Coping with Suicide: How a System of Practice Could Help
- » More Than Just Moody? Addressing Depression and Suicidality in Youth
- » Secondary Mood Disorders

Admission \$75
