

A Weekly Update
For The Employees of
North Central Health Care

"Borderline Personality Disorder Explained" – Submitted by Communications & Marketing

NEWS YOU CAN USE

WEEKLY CONNECTION WITH MICHAEL LOY

SafetyZone

On Monday, September 9, 2019, we will be implementing our new occurrence reporting system, SafetyZone. Our new reporting system pulls occurrence reporting out of TIER and will make the reporting process easier and more effective. Ultimately, a more effective occurrence reporting system should make our organization safer for patients and employees over the long-term. As we evolve as a regionally unequalled behavioral health and skilled nursing provider, we care for the most vulnerable who deserve our best attention to achieve a goal of Zero Harm. Every-

one we care for should have a fair opportunity to attain their highest version of health and abilities and no one should be disadvantaged from achieving their potential because we fail to address disparities that exist in our community. As a learning organization we achieve as evidence-based care, data, performance and culture are all aligned for continuous improvement and innovation. Our vision for a culture of safety aligns with the definition provided by the Agency for Healthcare Research and Quality (AHRQ) as one in which NCHC employees "are held accountable for unprofessional conduct, yet not punished for human mistakes; errors are identified and mitigated before harm occurs; and systems are in place to enable staff to learn from errors and near-misses and prevent recurrence".

An easy-to-use and effective occurrence reporting system is critical to an effective quality, compliance and safety program. The need for a new occurrence reporting system was identified as a priority as part of our annual Quality and Compliance Plan adopted by our Board. The teams working on this plan and the related initiatives are making improvements all across our organization. This system will help us further our goals and I am excited to see the milestone of its implementation next week. However, a great system is only as effective as the data put into it, and for that we need you. We need you to understand your responsibilities in reporting occurrences and being our partners in moving towards zero harm. Please take time in the next couple weeks to review the system, related training and applicable policies as we roll out this very important software.

Make it a great day,

WAUSAU CAMPUS LACTATION ROOM

In the Lab Suite

The Wausau Campus has a new location for the lactation room. It is located in the lab suite, room 1747. The previous lactation room was in the hallway headed to Evergreen Place, however due to renovations, that area is being closed for demolition. If you have any questions, you can contact HR or stop in the Lab on the Wausau Campus to check it out!

Person-Centered
Shout
out

John Ward,
RN, Crisis

Why: John went above and beyond to do a complicated medication reconciliation on a difficult case; putting in many hours past his schedule shift. Thanks John!

NCHC IN THE NEWS

Borderline Personality Disorder

Thank you to Dr. Richard Immler for his outstanding interview with Holly Chilsen of WSAW TV 7 regarding Borderline Personality Disorder. The "Deep Bench" featured Dr. Immler in-studio for a focus on this often mis-diagnosed mental health disorder. You can catch all the details and the interview at the link below or on our social media pages!

<http://bit.ly/BorderlinePers>

Dr. Immler's interview was so intriguing to the news station producer, they recorded another segment that day, as well as have made plans to come to the Wausau Campus later in September to discuss the Psychiatry Residency Program! Great work Dr. Immler!

SafetyZone Occurrence Reporting

On September 9, 2019, NCHC will be moving forward with launching a new web-based system to collect, manage and track occurrence reports. The system is called SafetyZone. SafetyZone will allow for easier and faster input of occurrences through a flexible system that is based online. There will be better follow-up and reporting mechanisms, increased quality, safety and accountability.

Why do we need SafetyZone?

Reporting occurrences is critical for organizations to bring awareness to events that signal harm or potential harm to patients, staff or visitors. And this is part of our ongoing commitment to enhance services and safety through the use of technology.

Will I need a login?

No. To submit a report, you will simply click the link found on your computer desktop and follow the instructions. It takes an average of three minutes to submit an occurrence report. Icon is shown to right.

NCHC
Safetyzone

What type of things do I use this SafetyZone link to report?

An occurrence is any incident that is not consistent with routine operation and that may potentially or actually result in injury, harm or loss to any patient/client/resident, visitor, volunteer or employee of NCHC. All occurrences should be reported. Below is a list of common occurrence events that should be reported:

- Falls (anyone – patients, visitors, volunteers, employees)
- Injuries to anyone
- Complaints (from anyone – patient, caregiver, facility, etc.)
- Medication errors
- Compliance concerns
- HIPAA breaches or potential breaches of information
- Abuse/neglect/misappropriation/exploitation

Remember, if you are unsure, just report it! Refer to your *Connections Guide* in the yellow safety section for more information on occurrence reporting.

Right now we still report events in TIER. Will this change?

Yes. The use of TIER to report occurrences will end on Sept. 9, 2019. All occurrences will be entered into the new system by clicking on the SafetyZone link. This includes patient, visitor and employee occurrences.

Will I get training on how to use the new SafetyZone system?

Yes. You will be assigned a short module in HealthStream that will walk you through the basics. Most users describe SafetyZone as very "user-friendly" and we expect that you will agree. But if you encounter any issues, please let us know.

When will the new
SafetyZone process begin?
September 9, 2019

CELEBRATING NATIONAL HEALTHCARE ENVIRONMENTAL SERVICES & HOUSEKEEPING WEEK!

SEPTEMBER 8-14, 2019

Held every year during the second full week of September, Environmental Services Week/International Housekeepers Week is a week dedicated to recognizing the efforts of hard-working custodial staff members. The true heroes of any building operation, cleaning employees have one of the toughest jobs in a building, but also one of the most important. Buildings that aren't properly cleaned can lead to illness and productivity loss for the people who visit, eat, live, work and play there.

This week is celebrated globally in thousands of facilities from Dubai to Hong Kong, Houston to Dublin. Please take time this week to recognize and thank our hardworking environmental services and housekeeping teams for a job well done!

Thank you for all that YOU do!

ELEVATOR CHANGES AT MOUNT VIEW CARE CENTER

For the Safety and Security of Our Residents

All three elevators in Mount View Care Center have been newly equipped with a double button to get to the 1st Floor. You will need to press the *1 button at the same time as the blank button on the elevator. Please assist our visitors, emergency staff, and residents with the elevator when needed. If you are unsure if the resident should be entering the elevator, especially down by Southern Reflections, please ask.

** The double doors to Southern Reflections will be closed and we ask that only necessary staff and visitors enter the unit through the doors and elevator. The elevator by Southern Reflections should be utilized for Southern Reflections traffic only. If you need to enter the unit please ensure the doors are closed and secure behind you. **

What is the NAMI Peer-to-Peer Education Program?

NAMI Peer-to-Peer is an 8-session recovery-focused course for adults with mental health conditions.

- Free and confidential
- Held weekly for two hours
- Led by peers with mental health conditions
- A great resource for information on mental health and recovery
- Offers respect, understanding, encouragement and hope
- Builds on the strength and resilience of participants

NAMI Northwoods, the local organization of the National Alliance on Mental Illness, will offer NAMI Peer-to-Peer beginning Thursday Sept 12th. It will be held on Thursdays at 6:00 pm at Grace United Church, 535 S 3rd Ave Wausau

Participant Perspectives

"NAMI Peer-to-Peer is uplifting, life-saving and an eye-opening experience that changed how I see myself."

"The biggest thing I gained from this class was to become my own advocate and best friend."

"Seeing my peers' strength and dedication to their recovery was personally meaningful."

Register online @ naminorthwoods.org for NAMI Peer-to-Peer!

FIBROMYALGIA SUPPORT GROUP 2nd Tuesday of Every Month

Fibromyalgia is a disorder characterized by widespread musculoskeletal pain accompanied by fatigue, sleep, memory and mood issues. Researchers believe that fibromyalgia amplifies painful sensations by affecting the way your brain processes pain signals. Fibromyalgia Support Group meetings are the 2nd Tuesday of every month at the Marathon County Public Library, Wausau Branch, 2nd floor meeting room from 6 pm - 8 pm. They cover different topics at each meeting and have a variety of health and medical speakers. For more information, please contact Donna Krause, BS Ed., MBA, Fibromyalgia Support Group Chair, 715-302-3851 or dkjustintime@gmail.com

This Tuesday we will have speaker Judy Rannow, Organizational Development Director and Professional Development Instructor at North Central Health Care (NCHC) present to our group on the topic of "Handling Stress With Fibromyalgia Syndrome".

August 2019 Employee of the Month

LAURAL HARDER
Volunteer Services

"Laural has become a very integral part of NCHC and it is always in the back of her mind what is in the best interest of those that we serve."

The NCHC Employee of the Month for August has been awarded to Laural Harder of Volunteer Services! Laural embraces our Core Value of Partnership at NCHC which is evident by her work with programs across the organization and in the community. Recently, she has taken an active role in Cycling Without Age of Marathon County and through her work has created a pilot handbook, become a board member and has been active in fundraising for the program. She is currently working on an idea to reach out to local volunteer coordinators in the area to implement a local group to share volunteers. Laural has also had a sharpened focus on patient experience and has shared her vision for renovations at the Wausau Campus including the experience that visitors, family and residents will have as they enter the new Mount View Care Center lobby in the future.

Congratulations Laural!

Register on the NCHC Team Page Before the Walk
<https://afsp.donordrive.com/team/NCHC> or In-Person at the Event

We are joining the community of nearly 250,000 people walking in hundreds of cities across the country in support of the American Foundation for Suicide Prevention's mission to save lives and bring hope to those affected by suicide. Registration is free and open to the public.

Walk Date: September 14, 2019

Walk Location: Marathon Park - Wausau, WI

Check-in/Registration Time: 9:00 am

Walk Begins: 10:00 am

Walk Ends: 12:00 pm

Thank you to the NCHC employees, volunteers and Community Partners that help organize the walk each year!

This event is sponsored by:

**North Central
Health Foundation Inc.**
Person centered. Outcome focused.

Register on the NCHC Team Page Before the Walk

<https://afsp.donordrive.com/team/NCHC>

Online registration closes at noon (local time) the Friday before the walk. However, anyone who would like to participate can register in person at the walk from the time check-in begins until the walk starts.

Registration is free and open to the public.

"CASH-ING" IN ON THE AMAZING PLACE SCAVENGER HUNT

Organizational Development Fun!

The Amazing Place scavenger hunt is a fun activity that NCHC new hires participate in during orientation. The group is divided into teams and provided with the first clue. That clue will guide them to a specific department where they learn something about that department before receiving the clue that takes them to the next location.

With the remodel underway and departments moving around, it was the perfect time to redesign the Amazing Place to accommodate the changes and enhance the overall activity. The end result features new wall signs placed outside the main entrance of each department that includes:

- Department name
- Brief description of the department and what they do
- A little known fact about that department
- The NCHC email address and social media icons
- QR Code (Quick Response Code) to scan and learn more

These new signs are informational to NCHC staff as well as patient/clients/residents and visitors who enter our facility. As departments move, the signs move with them.

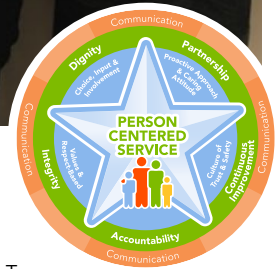

To kick-off the "new and improved" Amazing Place activity, Organizational Development coordinated an Amazing Place scavenger hunt contest for NCHC staff. Teams consisting of 2-6 individuals worked together to review the clue sheet to find the different locations within the building with the new signs. Once they found the location, teams could earn points by answering questions, learning more about the department and taking selfies of the group with the signs.

Congratulations to the Cash Queens for participating in the Amazing Place and taking home the winning prizes of unspeakable value! Team Cash Queens from Patient Financial Services included Linda Bever, Natasha Kelly, Jessica Putrus and Gina Woodward. The Cool Kids, consisting of Erika Koch and Nicole Knoblock from Adult Day Services (ADS) were the runners up who also successfully completed the scavenger hunt.

Thank you to all who participated.

Team Cash Queens from Patient Financial Services: Linda Bever, Natasha Kelly, Jessica Putrus and Gina Woodward.

HEALTHSTREAM CHANGES

News from Organizational Development

Organizational Development (OD) is pleased to announce that effective October 2019, we will implement a new Learning Management System (LMS), replacing HealthStream with UltiPro Learning for all staff.

The capabilities and enhancements of UltiPro Learning exceed those we have with HealthStream, and integrates with the new Human Resources, payroll and accounting system being implemented at the same time.

Over the next month, we will be working to download and print transcripts from HealthStream of completed modules and assignments of all staff to retain on file. As of September 20, 2019, HealthStream modules, checklists and rosters must be completed. At that time, the HealthStream icon and link to the site will be removed from all NCHC staff computers. The UltiPro Learning icon will be added when the program goes live.

Face-to-face and online training of the new Learning Management System will be provided.

Stay tuned for ongoing updates and deadlines regarding this change throughout the next month. This information will be conveyed through the weekly NYC, via email and communication with supervisors and managers.

WELLNESS CORNER

By Sherry Gatewood, PA

Cancer Screenings

Cancer is the second leading cause of death in the United States. Many of us know someone who has experienced cancer in their lifetime. Some cancers can be prevented through lifestyle but there are some cancers that run in families. There are some chemicals that people are exposed to that can potentially cause cancer, however, it may not show up for 15 to 30 years. Early detection is key to survival and done through screening. This week, we will discuss some specific cancer screening tests by gender. Screening tests can be performed or scheduled during annual wellness examinations.

Sherry Gatewood

Female specific screening: Women can perform monthly self-breast exams to find suspicious lumps and report to their health care provider. This is controversial for average risk women without a family history of breast cancer. Women do get a breast exam by a health care provider every year. This should not be used as a screening method without the addition of mammogram. Annual to Biannual mammogram screening begins at age 40 and can detect breast cancers one to four years before a breast cancer is evident. They are performed annually at age 50. Studies show that mammograms have proven to decrease breast cancer related deaths.

Cervical cancer screening begins at age 21 and will occur every 1 to 3 to 5 years depending on age and previous screening test results up to age 65 or 70. HPV, the Human Papilloma Virus is a known causative agent. Testing for HPV can be performed during the pap test. There is a vaccination called Gardasil to help protect men and women from the virus. It is available for males and females from ages 11- 26, up to age 40 years old. Safe sex practices are still necessary to prevent all types of sexually transmitted infections including HPV. The vaccine does not guarantee that one will

not develop an HPV infection, but like the flu shot, can help the body have a better ability to fight an acquired infection.

Male specific Cancer Screening: Men should perform monthly self-testicular exams and report any lumps or pain in the testicle to their health care provider. An examination by a health care provider will be performed during annual preventive examinations. Testicular Cancer is the most common solid organ cancer in men ages 15 to 35 and accounts for 1 percent of male cancers. Prostate Cancer is the second most common cancer in men. Screening begins at age 50 for most men. Those with a family history of prostate cancer less than age 50 and African American Men may need screening beginning between ages 40-45 years old. Prostate cancer screening is performed using the PSA or prostate specific antigen blood test. It is recommended every 1-2 years as a joint decision with the man and his health care provider. Elevated numbers may not indicate cancer, but other conditions such as BPH (Benign Prostatic Hypertrophy) or prostatitis (inflammation of the prostate). Symptoms of prostate conditions include frequently going to the bathroom, all day and night, interruption of urinary stream and or the inability to get started voiding.

Cancer screening tests can be performed at annual physical exams as well as during regular appointments in which concerns are voiced. Feel free to stop by the Employee Health and Wellness Center if you have any questions regarding screening tests. Better yet, schedule an appointment if you are due to for an annual physical exam. You can find more information on cancer screening tests at the Centers for Disease Control and Prevention website. <https://www.cdc.gov/cancer/dccp/prevention/screening.htm>

Wisconsin Deferred Compensation (WDC) Program
Offered By Your Employer, North Central Health Care Facility

Helping You Turn
Over a New
Retirement Leaf

Meet with your WDC Advisor

The Wisconsin Deferred Compensation (WDC) Program is a powerful tool to help you reach your retirement goals. Join a WDC Retirement Plan Advisor at an upcoming meeting.

If You're Just Starting to Save ... and need to enroll in the WDC, go to www.wdc457.org and click REGISTER or click [here](#). Use the Plan Number 98971-01 and the Plan Enrollment Code UoNcJ3pb expiration date 10/1/2019.

If You've Been Saving for a While ... you may want to review your income projections, savings rate and investment strategy. For a portfolio review, meet with your local Retirement Plan Advisor or call (877) 457-9327.

If Retirement Is Just Around the Corner ... we are here to assist you in making a smooth transition to retirement. Remember, when you stay informed and engaged, you can make your WDC account a more powerful retirement planning tool. Watch for pre-retirement group meetings near you!

Changing your payroll contribution or updating your beneficiary is easy!

Log in at www.wdc457.org or call the WDC Service Center at (877) 457-9327. Do you have questions about Wisconsin Retirement System (pension)? Please call WRS directly at (877) 533-5020.

Have an appointment and want a retirement strategy designed just for you? The more information you share with us, the more personalized your experience can be. Please bring the following to your appointment:

- ✓ Current Wisconsin Retirement System (WRS) statement
 - ✓ Social Security statement
 - ✓ Other retirement account statements
 - ✓ Current paycheck stub
 - ✓ WDC username, password and PIN (if known)
- Please bring all of the above information for your spouse/partner (if applicable).**

To sign up for an individual or group meeting, please click [here](#). If none of the listed meeting times work for your schedule, please look for additional meetings on other dates and/or other locations by clicking [here](#).
