

North Central Health Care

WHERE CARE MEETS PURPOSE

Join a **Mission-Driven Team** Improving Lives Across Marathon, Lincoln, and Langlade Counties Every Day.

Last year alone, North Central Health Care touched the lives of more than 12,000 people across Central Wisconsin. Behind that number are thousands of stories of recovery, healing, stability, and hope - neighbors, friends, and families who found the care they needed when they needed it most.

Every program, every service, and every team at NCHC plays a role in that impact. Together, we are making Central Wisconsin a healthier, more compassionate place to live.

“Last year alone, NCHC services impacted over 12,000 LIVES across Central Wisconsin”

Long & Short Term Skilled Nursing Facility

MOUNT VIEW CARE CENTER

Mount View is a skilled nursing facility where meaningful, hands-on work happens every day. The environment is fast-moving, personal, and deeply rewarding. Here, you can see the real impact of care and compassion in action. From residents recovering after surgery to those needing round-the-clock dementia or Ventilator dependent support, every day is filled with moments that matter.

MOUNT VIEW SERVICE LINES

Short-Term Rehab

Rebuild strength, mobility, and independence after surgery, injury, or illness.

Long-Term Care

For residents who can't fully care for themselves, we provide 24/7 support, not just for daily tasks, but to foster a true sense of home.

Dementia & Memory Care

Residents with Alzheimer's/memory challenges receive compassionate, structured care. Engaging activities and routines help them live with dignity while giving families peace of mind.

Ventilator-Dependent Care

Staff ensure safety, comfort, and quality of life for residents who rely on breathing machines

Warm Water Aquatic Therapy

AQUATICS FACILITY

At North Central Health Care's Aquatic Therapy Center, we're not just helping people move, we're helping them live better. Our Warm Water Therapy Program features the area's first and only warm water therapy pool, maintained at a soothing 90°F year-round. This environment allows patients to perform exercises that might be too painful or difficult on land, making recovery safer, more effective, and more comfortable.

KEY AQUATICS MODALITIES

Custom-Tailored Physical Therapy

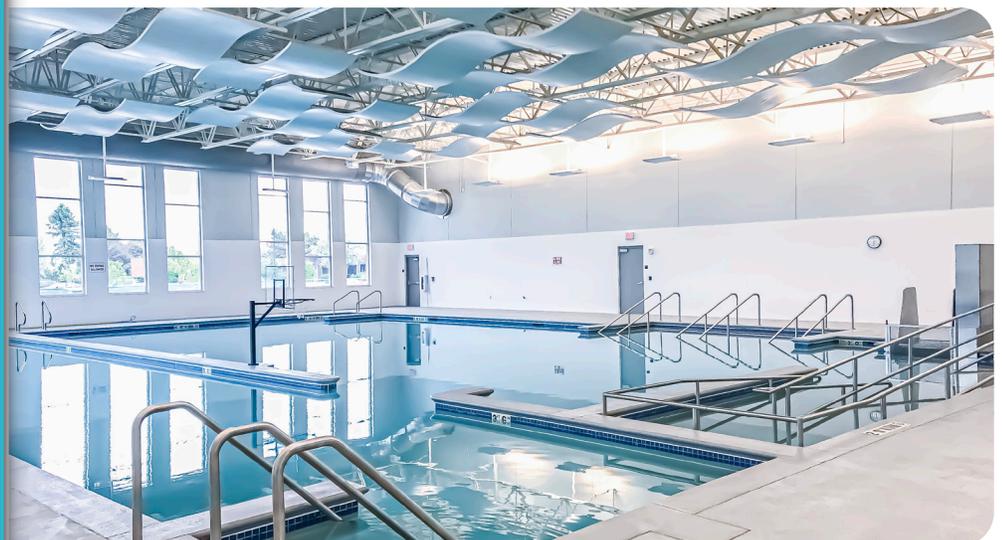

Individualized plans from licensed therapists with a doctor's referral.

Rehabilitation Support

People recovering from surgery, injuries, or chronic conditions regain strength, mobility, and confidence in the water.

Mobility & Strength Building

Pool buoyancy and warmth reduce joint stress, alleviate pain, and improve balance, flexibility, and overall strength.

Inpatient, Outpatient, Crisis & Recovery Programs

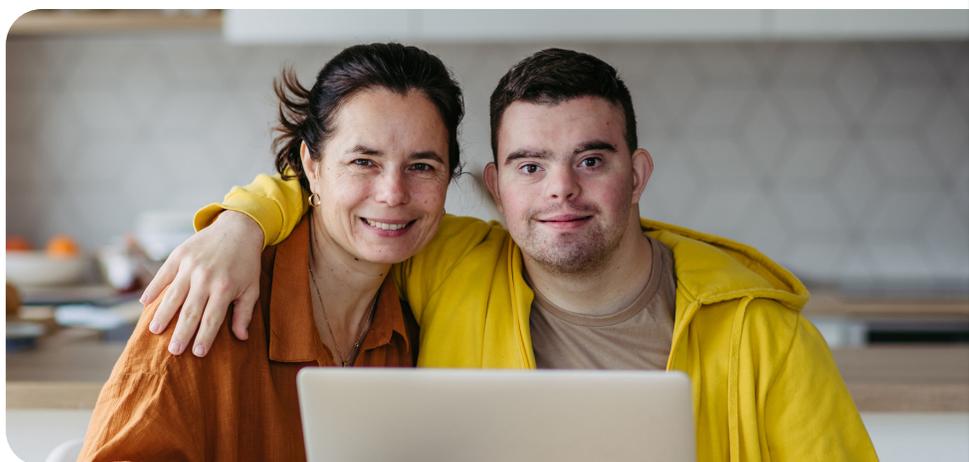

BEHAVIORAL HEALTH SERVICES

Behavioral Health Care at NCHC is hands-on, fast-paced, and deeply rewarding. You can see the real impact every day, helping people rebuild lives, restore balance, and move forward with purpose. At North Central Health Care, behavioral health isn't just about treatment, it's about helping people take back control of their lives. From mental health challenges to substance use recovery, every program we offer is designed to provide safety, support, and real tools for lasting change.

APS, Residential & Community Treatment COMMUNITY PROGRAMS

Our Community Programs are all about helping people thrive where they live. From supporting adults with developmental disabilities to protecting vulnerable individuals and providing ongoing treatment, these programs make a direct impact in neighborhoods across our region.

BEHAVIORAL HEALTH PROGRAMS

Inpatient Services

Daily psychiatric care and support, in a secure setting, for individuals at risk of harming themselves or others.

Outpatient Services

Counseling, therapy and psychiatry for those in need of mental health or medication management support.

Crisis Services

24/7 team ready to help stabilize those in immediate emotional or mental health danger in the community.

Lakeside Recovery

Residential program providing a safe, supportive environment for those overcoming alcohol or drug use.

KEY COMMUNITY PROGRAM SERVICES

Residential & Community Support

Teams help individuals with developmental disabilities live as independently as possible, assisting with daily activities while creating a sense of belonging and connection.

Skills Development

Staff teach practical life skills to help people achieve personal goals, participate in their communities, and live with greater independence.

Adult Protective Services (APS)

Helps protect adults who may be at risk due to abuse, neglect, or unsafe living conditions, ensuring safety, dignity, and respect for every individual.

Community Treatment

Our Community Treatment team provides individualized support to those with ongoing mental health challenges stay stable, connected, and healthy in their own homes.

MAKING AN IMPACT EVERY DAY

At NCHC, you're a part of something important where **every shift makes a difference.**

Make A Real Difference.

When you work at North Central Health Care, you're part of something that truly matters. You're not just clocking in, you're making **a real impact in people's lives** every single day.

NCHC is an innovative tri-county health system that unites the resources of Marathon, Langlade, and Lincoln Counties to care for our community in ways most organizations can't. From **mental health** and **recovery services** to **skilled nursing** and **community-based care**, we're helping people live healthier, more independent lives, people who might not have access to these services without us.

Because we're publicly funded through county, state, and federal support, **every dollar goes back into care, not profit**, back into programs, people, and our community. When you work here, the impact you make helps those who need it most.

"at NCHC, every shift changes lives"

Testimonial

"The most rewarding parts: The strong sense of team work, the variety of clinical skills you can develop, and the personal fulfillments of making a positive impact on residents lives".

– Minfang Utterback, RN North Central Health Care
