

cerner millennium+ SUPER USERS

North Central Health Care
Person centered. Outcome focused.

WHAT IS A SUPERUSER?

A formalized network of embedded leaders within each department to support the adoption and implementation of Cerner Millennium. Super Users will train employees on how to use the new system and answer any questions or concerns that arise along the way.

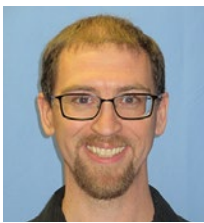

WHAT IS CERNER MILLENIUM?

Millennium is an electronic health record platform that will help you to document and access critical patient data, streamline workflows, and help to improve both patient safety and the overall patient experience.
